Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Claim Objections

Claim 12 is objected to because of the following informalities: Claim 12 is essentially a duplicate of claim 6. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5,7-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Bovi (6,382,325).

Bovi discloses a gear mechanism including a shaft, (14 and/or 300), side components 19 & 191 (considered tiller stars), and a means to protect against wrapping 192 which is rotatable about shafts 14 & 300 since it is not directly attached to the shafts as shown in figure 2. Concerning claim 2, the means to protect against wrapping is considered to meet the limitation of having axial play since it clearly has axial play during assembly, or during disassembly such as during replacement of the cultivating members 19 & 191. Concerning claim 7, member 193 is considered a collar.

Allowable Subject Matter

Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3671

Claim 12 is allowed.

Response to Arguments

Applicant's arguments filed 3/18/05 have been fully considered but they are not persuasive. Applicant argues that Bovi (6,382,325) does not disclose a means to protect against wrapping externally or outwardly of the spacer 192 as required by claim 1. Applicant's arguments however are more limiting than the claim itself. The examiner notes that claim 1 requires a means to protect against wrapping about a shaft portion. It is the examiner's position that the spacer 192 protects against wrapping about shafts 14 and 300, and therefore meets the claimed limitations of claim 1.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
